IVAN ALEXANDRO MOROZ

Full stack developer - Java

PROFILE

Hello! My name is Ivan Alexandro, I am passionate about programming and I recently graduated as a full stack developer in Java with the company Egg cooperation, there I was able to learn HTML5, CSS, Java, JavaScript, Bootstrap, Git, Github, ReactJs, JPA, JDBC, Spring and MySQL. I am looking for my first job as IT, no matter what programming languages you use as long as you allow me enough time to learn them correctly. I am fascinated by learning and I am always constantly learning new tools, methods, practices, etc.
